

Ikarus

- Ikarus EAG 395

Ikarus EAG 395

The bus was never fully released so there are few bugs, like:

- There is no ticket printer and cash desk (so make sure to have ticket selling on simple (with simple you can use keyboard shortcuts) or off).

Dashboard buttons we've figured out

This is manual gearboxed bus. If you want to have simpler logic: just pressing gear keys, no clutch, enable following setting in OMSI:

The screenshot shows the 'Options' dialog box for OMSI, with the 'General' tab selected. The window has a title bar with a minimize button, a maximize button, and a close button. The 'General' tab is active, showing various settings. At the top, there are tabs for 'General', 'Advanced', 'Graphics', 'Graphics (advanced)', 'Sound', 'AI-Traffic', 'Keyboard', 'Game Controller', and 'Addons'. The 'Language' is set to 'ENG'. Below this is a 'Load/Save' section with 'Load options' and 'Save actual options' dropdown menus, and a 'Save!' button. The 'Ticket selling' is set to 'Easy'. The 'Link radio station' field is empty. The 'Maintenance condition' is set to 'Infinite'. There are several checkboxes: 'Driver's head moves' (checked), 'Smooth view transitions in driver view' (checked), 'Alt. View Control: Zoom = [Shift] + R.MouseB, Pan = R.MouseB' (checked), 'Automatic Steering Wheel Center (Keyboard Control only)' (unchecked), 'Automatic Clutch' (checked), 'Dynamic wheel speed' (checked), and 'Collisions with other vehicles and landscape' (checked). A sub-section 'Use curr. Date/Time' contains three checkboxes: 'Time' (unchecked), 'Date' (checked), and 'Year (± offset depend. on map)' (checked). At the bottom are 'OK' and 'Cancel' buttons.

Options

General Advanced Graphics Graphics (advanced) Sound AI-Traffic Keyboard Game Controller Addons

Language: ENG

Load/Save

Load options:

Save actual options: Save!

Ticket selling: Easy

Link radio station:

Maintenance condition: Infinite

☒ Driver's head moves

☒ Smooth view transitions in driver view

☒ Alt. View Control:
Zoom = [Shift] + R.MouseB, Pan = R.MouseB

☐ Automatic Steering Wheel Center (Keyboard Control only)

☒ Automatic Clutch

☒ Dynamic wheel speed

☒ Collisions with other vehicles and landscape

Use curr. Date/Time

☐ Time

☒ Date

☒ Year (± offset depend. on map)

OK Cancel

By default, manual gear buttons in OMSI are:

N, R, 1, 2, 3, 4, 5 (numbers in the number row, not numpad), Tab is clutch if you didn't enable automatic clutch
