

Ikarus EAG 395

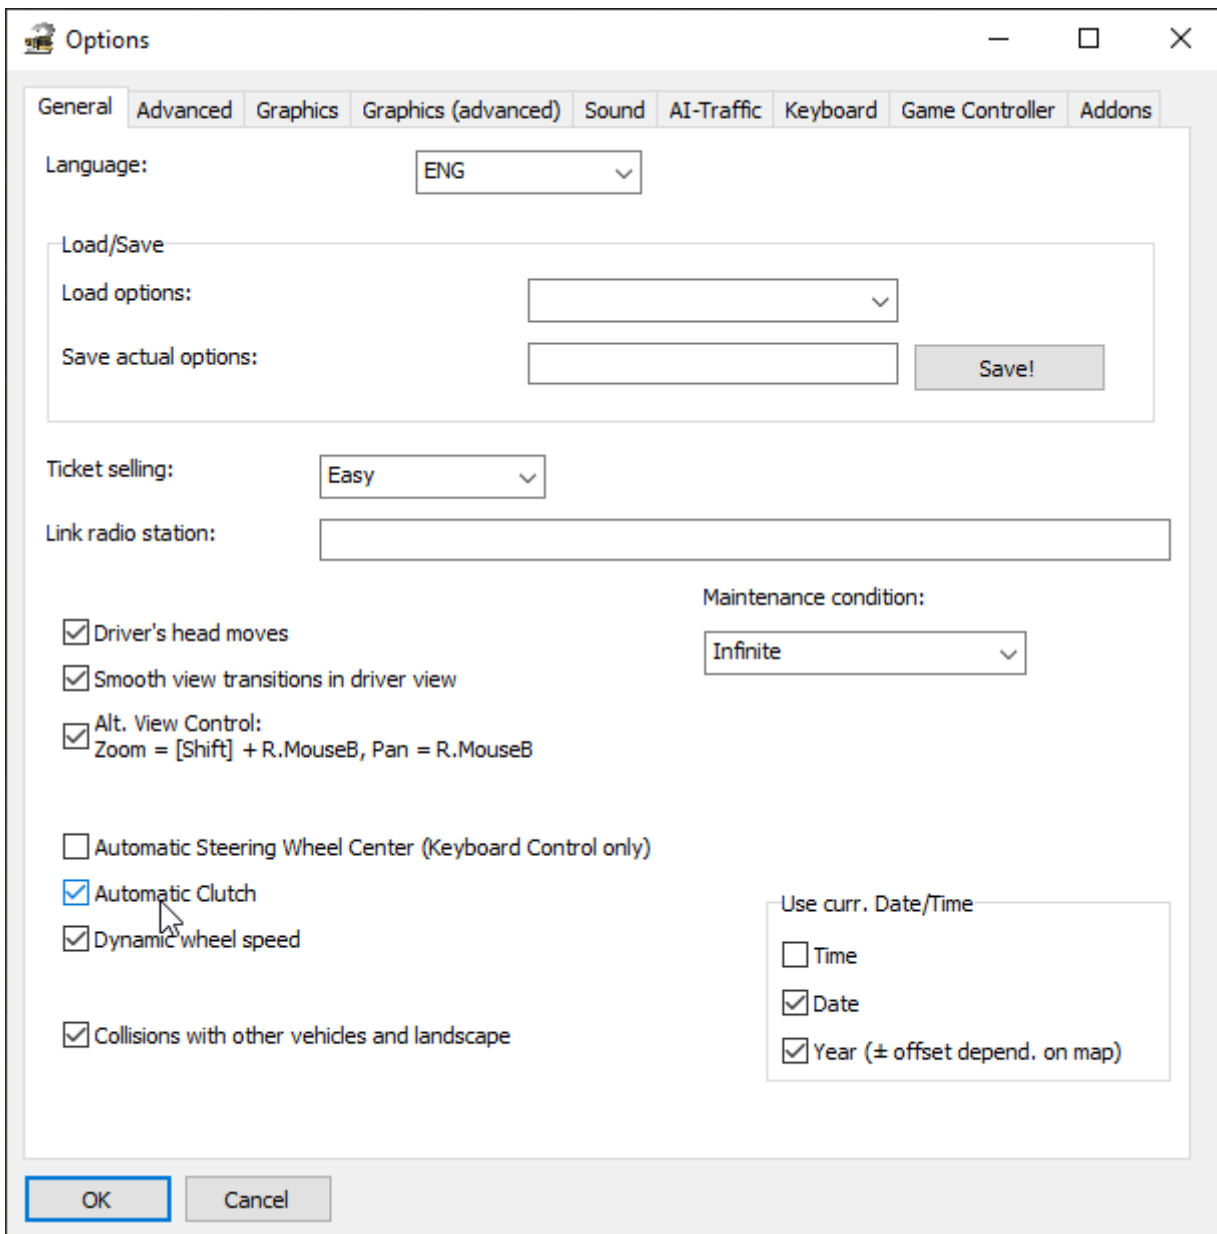

The bus was never fully released so there are few bugs, like:

- There is no ticket printer and cash desk (so make sure to have ticket selling on simple (with simple you can use keyboard shortcuts) or off).

Dashboard buttons we've figured out

This is manual gearboxed bus. If you want to have simpler logic: just pressing gear keys, no clutch, enable following setting in OMSI:

By default, manual gear buttons in OMSI are:

N, R, 1, 2, 3, 4, 5 (numbers in the number row, not numpad), Tab is clutch if you didn't enable automatic clutch
